

Cluster Name : Tokyo Metropolitan Aviation Network (TMAN)

Tokyo Metropolitan Aviation Network (TMAN) is a network of the most highly skilled and experienced Tokyo-area small and medium enterprises (SMEs) in the manufacturing sector.

The network assembles SME manufacturers with versatile abilities. The network aims at building a system that enables it to arrange and offer integrated production schemes fulfilling skill, equipment and quality requirements from customers for various aircraft parts.

TMAN will support customers' supply chains by its superb performance based on the integration.
